

# Mohammed Abdulrahman Idrees

Software Developer

## SUMMARY

Creative, detail-oriented, software engineer with a focus on web development and a deep interest in VR/AR. Proven track record of creating and implementing successful front and back-end web applications. Looking to bring my skills to a tech company with global reach.

## WORK EXPERIENCE

### Software Engineer at 100devs, Remote

January 2022 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full-stack web applications
- Applied agile methodologies like SCRUM for project management

#### Recent Projects:

**PlaMed (Fullstack Web App)** – User can Search for a plant, medicinal information about it, Admin can add more species of plants, their medicinal pieces of information, delete and update information through a custom made Dashboard page that is only accessible to admins

**HayaFooty (Fullstack Web App)** – Get the live score of your favorite matches in your favorite leagues and championships, get the league standings, the top scorers and various stats

**P4P(Fullstack Web APP)** – user can get live consultancy from a volunteer professional without leaving the comfort of their houses, resulting in saving their time and getting a rapid response

**Other Projects:** Giffer (video to gif converter), SKIES StarGazers Society APOD Web App with NASA API integration, and many more
